

## DRILL GAUGES NUMBER & IMPERIAL

E-Mail: [sales@asapspares.com.au](mailto:sales@asapspares.com.au)

**Drill Gages** help you to quickly and accurately identify the sizes of stray drill bits in your workshop. These gages can be extremely useful with older, unmarked bits or ones that are too small for markings. Each heat-treated, heavy steel gage is machined to close tolerance for spot-on accuracy. The bit sizes and decimal equivalents are permanently etched to the face to provide years of dependable use.

\*

**Our Part Number: 12Y-00518 Drill Gage**

For identifying number size drill bits from 1 to 60.

- Drill Gage measures 6-1/2" x 2-1/2".
- Conforms to USA Governments Specifications GG-G-86b

\*

**Our Part Number: 12Y-00519 Drill Gage**

For identifying letter size drill bits

\*

**Our Part Number: 12Y-00520 Drill Gage**

• For identifying fractional size drill bits from 1/16" to 1/2" x 64ths.

- Drill Gage measures 6-1/2" x 2-1/2".
- Conforms to USA Governments specifications GG-G-86b.

Features:

- Great for use with older or smaller unmarked bits.
- Made of heat-treated, heavy gage steel.
- Holes are machined and ground to close tolerances.
- Hole sizes and decimal equivalents are permanently marked on face.
