CCA39680	This fuel sampler cup is designed for use with many popular fuel drain valves including the F391 drain valves used on many of today's productions aircraft. Wide bowl allows fuel sampling without fuel dripping onto the hands. Stow-Away Fuel Tester Holder - This holder is designed specially to hold a sampler cup. It holds the tester in a spring-loaded configuration and can be mounted on the firewall or in the cockpit for easy access.			*	
391S	This compact fuel tester / double tip screwdriver combo measures the presence and percentage of alcohol in gasoline and tighten errant screws.			*
